Dialog attendance list (16/6/2026)

On 16 June 2026, the full attendance list for Peter Thiel's private society, "Dialog" was leaked.

The attendance list was discovered hard-coded in the HTML of the official dialog.org website. The leak was subsequently fixed by the website owners.

I captured the website's HTML at the time of the leak, which included the names of the club's members.

I am unaware of any nefarious activity by the organisation but find it interesting how many influential individuals were part of the society and would simply like to preserve the attendance list here in this repository.

This list can also be found in the website HTML via the Wayback Machine at:
